

“It's simple, and they just like the tablets!”

Manny Del Rio, Sr.,
Super Business Machines

Super Business Machines Markets the Tabby “Tablet Based” Solution

At Super Business Machines, Tabby is the go-to product for small merchants of all types. Four Tabby installations have been completed to date:

- An acai berry drink stand located in a large city park, using two tablets with Tabby,
- A small coffee shop located in a hospital,
- A cupcake shop,
- A kiosk selling tour packages in the tourist section of San Juan.

“We’ve been busy and people are motivated. They want something simple, and they just like the tablets!”

The need for mobility has been a key factor in our success. The Acai stand and the kiosk are outdoor applications where the tablet is much better suited than a traditional cash register. We’ve proposed Tabby to another account, a food truck using solar power. Tabby’s small power use, about 3 amps, is easily accommodated with limited power available on the truck.”

About Super Business Machines

Founded in 1986 by Manny Del Rio Sr., Super Business Machines of Bayamon, Puerto Rico, has been both a dealer and distributor for CRS for over 25 years. The Commonwealth of Puerto Rico, a United States territory, has a population of about 3.6 million on the main island, and a number of smaller islands in the Caribbean. Super Business Machines, through its own office and a network of about ten very active resellers, provides SAM4S solutions, CAS scales and NCC POS to merchants throughout the entire territory.
